DATES FOR YOUR DIARY

Open Morning 14th February 2015

Nursery

Reception

In Early years we have been learning about the topic 'day and night'. We have had lots of fun activities which included a pyjama party! At the pyjama party we all put on our pyjamas (even the teachers!) and we brought in our teddy bears. We played lots of fun games and activities then we had some yummy snacks and hot chocolate followed by a bedtime film.

Year 2

We enjoyed a visit from Leo's family. In Humanities our topic is China and we were very lucky to have the opportunity to taste delicious Chinese food and to talk about Chinese culture.

Week 3

Week 4

Stars of the week

Year 5

Year 5 have been studying the water cycle in science, and Rivers in Geography. It was their turn for assembly last Friday. They presented a power-point and explained how the water cycle works.

There were some tricky scientific words such as 'evaporation', 'condensation' and 'recipitation' and everyone learnt their script well.

Our photo shows the dance Y5 performed, to explain how the water falls as rain and evaporates as vapour, the cycle demonstrated with ribbons.

Year 6

This term year 6 performed an assembly about protesting. As part of their studies they have been looking at biographies in literacy and song lyrics during music, this led them to learn about protesting and protest songs. For their assembly they performed the protest songs they wrote in music, these included protest against; homework, school dinners and going to school, they also waved the placards they made in art.
