

British International School of Tunis

News from the school December 2015

From the Headmaster

What a delightful way to end the term with the performances of the 'Pied Piper of Hamelin'! This was an ambitious project and my congratulations go to Miss Ann, Miss Shirley and all the children for their stamina and ingenuity to make it such a success.

The Parent Teacher Association also put on a lovely Winter Fair which raised a total of over 2.5000 Dinars, to go mainly to the Rabta Hospital. The parents' generosity has been overwhelming. Many thanks.

We have started the BIST Senior school by introducing Year 7 and a new building is being prepared for Year 8. These are exciting times.

May I wish you all a very relaxing holiday!

DATES FOR YOUR DIARY

Thursday 14th January Tunisian Revolution Anniversary

Fete de la Révolution et de la Jeunesse

Mon 15th - Fri 19th February HALF TERM holiday

Sat. 6th February - OPEN MORNING 10.00—1.00pm

Reception

Reception class has been learning about the Dino world . Discussing the extinction of dinosaurs , and the important role of palaeontologists ,they have enjoyed digging for dinosaurs fossils in our school sand pit .They used different materials ; brushes to remove the dust , the hummer to remove hard rocks.... They eventually build up the different bones found to finally have a Triceratops and Tyrannosaurus Rex skeletons.

Christmas Carols at the Ambassador's residence

This was a lovely occasion which is held annually at HM Ambassador Mr Hamish Cowell residence in la Marsa. It was also a special occasion for BIST as our Choir sang a number of group songs and on their own in a 16th Century Polish Carol 'He Is Sleeping In a Manger'. During the interval we all enjoyed traditional mince pies. The girls and boys looked very smart in their school uniforms, and they were all tired but happy by the end. David Wilson

Year 2

Year 2 pupils learned that everything on Earth is made up of matter.

matter is anything that takes up space.

Through hands-on activities, they learned about the 3 states of water. They also learned scientific enquiry methods by observing and documenting changes in matter.

Year 2 pupils conducting an experiment to better understand what a gas is.

MERRY
CHRISTMAS
